

7th Grade Science Protist Project

16 November 2012

120 point in-class assignment

Project Guidelines

- Goal: Research Six Protists. Amoeba, Paramecium, Euglena, Dinoflagellates, Diatoms, Vorticella.
- Using a half sheet of poster paper and colored pencils, you will draw the protists and label their parts. (60 Points) (10 Points for each Protist)
- Insure that under the diagram of each is written:
 - Their Scientific Name (always two words) and their Classification. (10 Points)
 - Where do they live? (10 Points)
 - How they move/their Locomotion (there are only three ways)? (10 Points)
 - What they eat or how do they get energy (their Diet)? (10 Points)
 - How they reproduce? (10 Points)
- On the back of your poster paper, draw the three shapes of bacteria and label the parts of a bacteria. (10 Points)
